🔗 Portfolio

Professional Summary

BCA student skilled in **MERN stack** development with experience building **full-stack web applications** using **React, Node.js, Express.js, and MongoDB**. Developed projects including **MovieVerse**, demonstrating **REST API integration, authentication, and responsive UI development**. Seeking a **Frontend or Full Stack Developer** role.

Education

2024 – 2027

BCA (Bachelor of Computer Applications)

Pt. Deen Dayal Upadhyay Management College

Technical Skills

Frontend Development

HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design

Backend Development

Node.js, Express.js, REST APIs

Database

MongoDB

Tools

Git, GitHub

Key Projects

MovieVerse

React, Node.js, Express.js, MongoDB

- Developed a **full-stack movie booking application** with movie search, genre filtering, movie details, seat selection, food ordering, checkout, and booking management.
- Implemented **user authentication with signup/login, logout, and user-specific bookings** using React and a Node.js/Express.js backend.
- Built a responsive UI and deployed the application using Vercel.

Live Demo | GitHub

Weatherly

React, JavaScript, OpenWeather API

- Developed a responsive weather dashboard using **React** and the **OpenWeather API** to display temperature, weather conditions, humidity, and wind speed for searched cities.
- Implemented **API integration, loading/error states, and environment variables** for secure API key management.
- Designed a **responsive glassmorphism UI** with CSS.
